

## SAFETY & COMPLIANCE VERIFICATION

### Skyriders Access Specialists (Pty) Ltd

has been assessed and verified as compliant against the BARS RPAS  
Standard Version 2:

A Safety & Compliance Verification encapsulates the review findings and conditions on the use of the RPAS Operator along with a summary of findings that may have significant safety implications.

The onsite audit assessment included examination of the following areas:

- Organisational / Management Structure and supporting documents
- Operational approvals, exemptions and privileges and supporting documents
- Presence of a Safety Management System, OH&S framework, Quality Risk Management frameworks and systems
- RPA fleet details
- Supporting documentation of RPA Pilots and crew
- Insurance documentation
- Civil Aviation Authority permission and approvals
- Safety performance review
- Risk assessment example
- Flight task observation

**This certificate is valid from 9 November 2020 until 31 December 2021**

Assessment carried out by:

Ross Norval

Aviation Advisor – Africa, EU and Middle East

This compliance verification is based solely on the information provided by the aircraft operator and the observations made during the assessment. SGS Aviation Compliance is not liable for any loss, damage or injury caused by, or as a result of activities of, or the negligence of a third party claiming to be relying on this compliance verification.
